

COMMUNITY UNITED FOR BETTER SCHOOLS (CUBS)
PO Box 832, Woodbridge, NJ 07095
www.woodbridgecubs.com

WHAT IS CUBS?

CUBS is a grass root organization formed in 2002 by Woodbridge community members. Frustrated by the township's inability to consistently obtain voter approval for the school budgets – a pattern in Woodbridge for 32 of 33 years, and convinced that low voter turnout was directly related to a lack of information CUBS organized to assist in educating Woodbridge voters on the school budget process, issues and legislation that might affect our children's education and legislators who will protect our children's public school interests. CUBS is an independent organization with no political affiliation although many of our members are active throughout other organizations. The group is funded solely through donations.

Monthly meetings are held at the Public Library on Green Street in Iselin the first Tuesday of each month at 7:30 p.m. Meetings are advertised on the CUBS website and anyone from the community is welcome to participate. Representatives of the Board of Education, Central Administration, Presidents' Council, Woodbridge Township Education Foundation and Woodbridge Township Education Association are frequently in attendance.

The CUBS leadership, which is comprised of its original founding members, is a diverse group active in the Community and dedicated to ensuring the success of Woodbridge's children. Since its inception, CUBS has grown from its original seven founders to more than 400 members. This is important because Woodbridge, with a diverse population of 97,000, is New Jersey's sixth largest municipality. CUBS believes the road to success in our schools must involve the community as a whole.

Why is this important to you?

We believe that parents who understand the budget process; who are informed about legislative and community initiatives that affect our schools; and how each of these impact their children(s) education will come out to vote and ensure a quality education for their children.

How can you help?

Become a member of CUBS. There is no time commitment required. You can participate at whatever level of involvement is comfortable for you. Becoming a member gives us permission to contact you when issues arise or when elections are approaching.

You can make a difference in getting our children on the road to success through excellence in education.
